

Quick Reference Test Pit Digging Guide

Step	Where to work	What to do
1	Booklet	Fill out all boxes on the front cover of your Digging an Archaeological Test Pit Excavation Record booklet.
2	On marked test pit site	Measure out your 1 m square test pit with tape, string and nails.
3	Around test pit	Measure and draw a location sketch plan to record test pit location.
4	Near test pit	Lay out your plastic sheeting at least 2 m away from test pit.
5	Booklet	Fill in details on top right-hand side of the first Context Record Sheet page in your Digging an Archaeological Test Pit Excavation Record
6	Booklet	Complete recording steps 1–4 on the Context Record Sheet , including drawing a plan of the surface of the pit in the gridded square at 1:10 scale.
7	Beside test pit	Line an empty finds tray with newspaper.
8	Beside test pit	Label a plastic resealable finds bag in permanent marker pen with the site-name, test pit number and context number, and place it in the finds tray.
9	In test pit	(Before first context ONLY) Remove turf (if present) with spade, in squares as neatly as possible.
10	In test pit & on spoil heap	Use mattock to loosen soil in test pit, and the shovel to put it into bucket. Keep the bottom of the test pit as level as possible and the sides straight. Try not to get soil on the grass.
11	On spoil heap	Sieve every bucketful of soil (holding the sieve over the plastic sheeting). Pick out of the sieve anything you see that looks man-made (these are your finds) and tip the residue onto the spoil heap on top of the plastic sheeting.
12	Beside test pit	Clean any finds and place them in the finds tray to dry (only put them in the finds bag when they are dry).
13	In test pit	Continue until you have removed 10 cm from the whole surface of the test pit.
14	In test pit	Use your trowel and hand shovel to remove all loose soil from the exposed surface and leave it level.
15	Booklet	Fill in the rest of the Context Record Sheet by filling in boxes steps 5–7.
16	Booklet	Begin your next context by starting a new Context Record Sheet , i.e. by returning to step 5.
Repeat steps 5–16 (omitting step 9) for context 2 and all subsequent contexts until you have finished your test pit, then go on to step 17.		
17	Booklet	Fill in the details on the top left hand side of the FINAL Context Record Sheet page in your Digging an Archaeological Test Pit Excavation Record complete all 7 recording steps.
18	Booklet	Fill in all parts of the final Section Drawing Sheets .
19	In test pit	Back-fill your test pit and replace turf AS NEATLY AS POSSIBLE .
20	In test pit	Tidy site, collect up and clean your equipment and return with everything to the excavation base.

1. Make a measured, labelled plan of the unexcavated surface the test pit, showing where it is in relation to features such as houses, boundaries, roads, walls etc which are marked on your Ordnance Survey map. Include lines showing the exact distances from your test pit to permanently identifiable points nearby such as buildings or field corners. Show your test pit as a square with the corners numbered 1-4, to correlate with the numbers on each context plan in the **Context Record Sheets** in this **Record Booklet**.

2. Draw an arrow here pointing in the direction of North on your map:

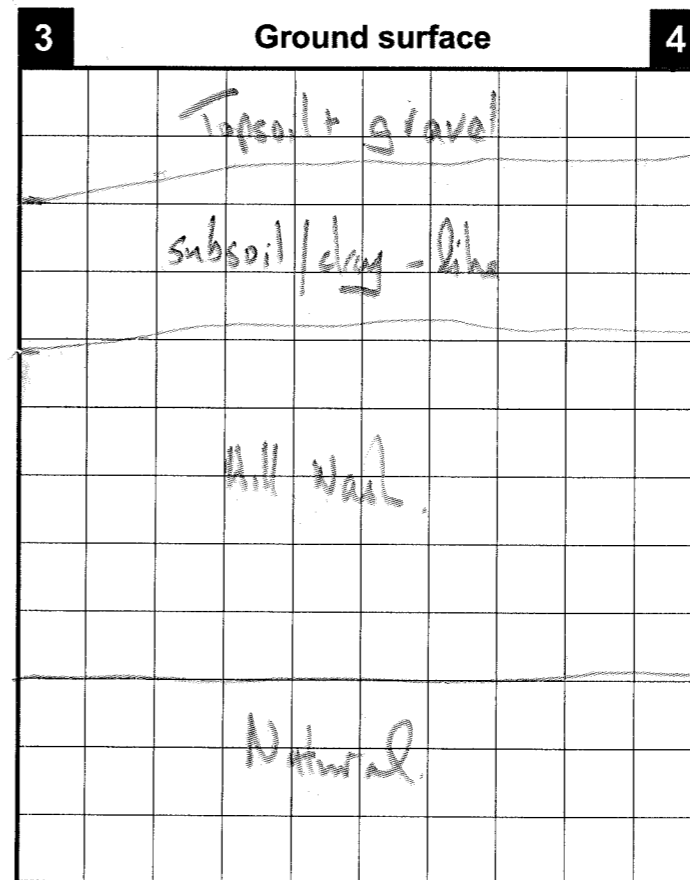

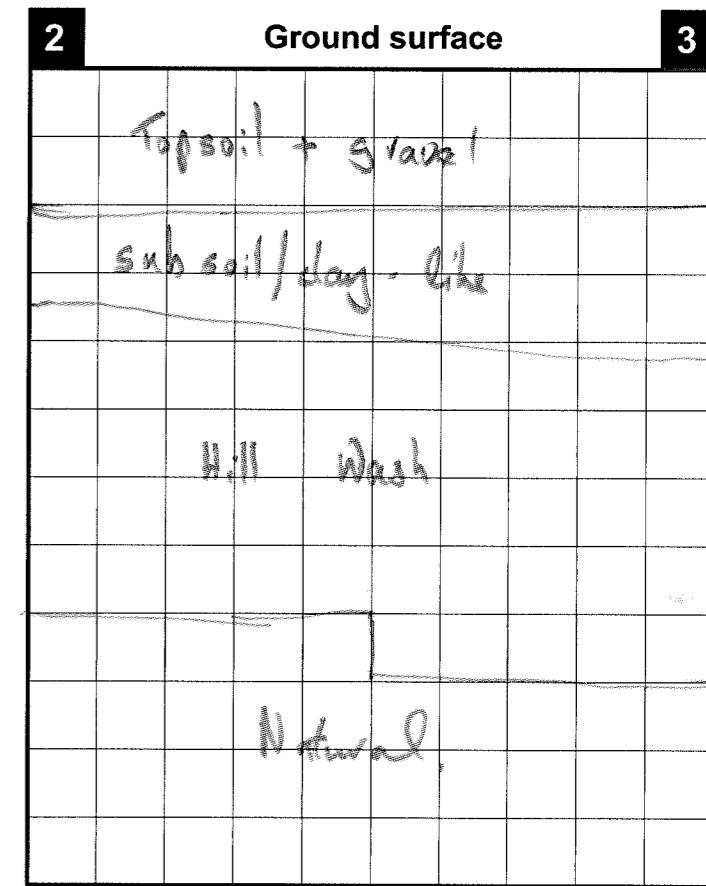

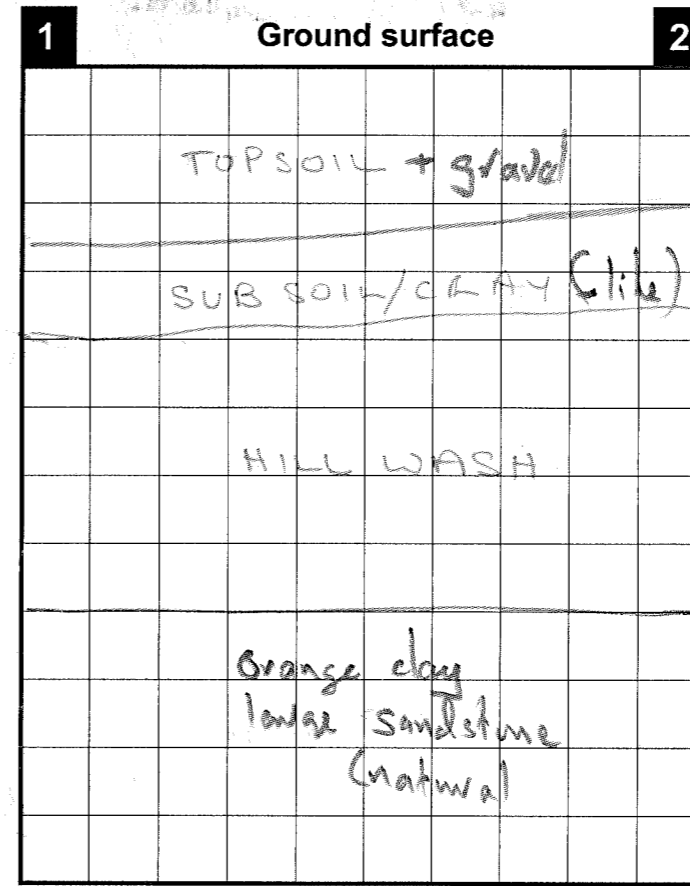

3. Describe where your test pit is, adding any notes which help explain this to someone who doesn't know your site:
